Live agent salesforce chat window

Live Agent Salesforce Chat Window : Developed a Chat window feature for Adaptus salesforce website for providing their customers immediate access to help.

Circles

Circles.io is a powerful app which makes meeting and networking a seamless and rich experience. One can instantly exchange contact information, form groups, and start communicating with a single tap. Your contacts' information is dynamically updated and automatically synced to your address book (if you choose auto sync). It is like having multiple business cards. You can control what to show to your contacts.

Commission Cow

Founded by real estate professionals, CommissionCow's goal is to provide a fast and inexpensive solution to the short-term cash needs of colleagues in the industry.

CommissionCow.com serves licensed residential real estate agents across the United States. Sometimes cash can be tight and closings long. They keep agents liquid by providing funds before a closing happens, at the best rates in the industry.
